

Measuring Your Head

Determine hat size by using a flexible tape measure, a string and ruler. You may also measure your head by printing out our handy [custom measuring tool](#). Measure from the back of your head bringing the ends together at the center of your forehead right above your eyebrows. Use the hat size chart below to determine your size, rounding to the nearest eighth of an inch as necessary. It is important that you measure your head, even if you've found a great fit with a certain size in the past, as hat sizes do vary brand by brand. Remember, fitting your head isn't an exact science or a guarantee of hat fit. View our convenient hat sizing guide for men and women for more information.

	Measurement in Inches	Hat Size	European Size
	21 1/8	6 3/4 - S	54
